Dear Mr. Snow:

I wish to recommend certain changes be made to the current "revised Cal-Fed plan. Rather than increasing the size of various dams which have already been built, I urge Cal-Fed to adopt aggressive approaches to promote conservation of California's water resources.

Similarly, rather than constructing or expanding off-stream reservoirs, I would like to recommend that at least equivalent resources of our governmental agencies be used to

p2

desires ~~to~~ encourage the most
useful industrial and
agricultural users ~~of~~ of
water obtained by damming
the rivers of California

Thank you for your
consideration

Sincerely,

Walter R Merry, Jr
